

**FOR ORGANIZATIONS**

# Your outsourced Examinations & Evaluation department.

We build, host, deliver, mark and certify your workforce's emergency-response training and testing — fully branded to your organization — so you carry none of the administrative or technical load.

[↓ Download this package \(PDF\)](#)

## The idea, in one line

You should never have to design a test, run an exam, mark a paper, or issue a certificate again. Give us your people and your standards; we run the entire examination and evaluation function for you, under **your** brand, and hand you clean, auditable results.

## What your organization gets

### Your own branded portal

Your logo, your colours, your name over our platform. Your people train and test under your brand — not ours.

### A complete, standards-based course & exam library

Firefighting, facility fire brigade (interior & exterior), HazMat, HAZWOPER, rope & confined-space rescue, and incident command (FEMA ICS 100–400) — built on published NFPA, OSHA and FEMA standards, available in many languages. New courses added continuously.

### We run the entire exam lifecycle

We set up the assessments, issue each of your staff a secure, time-limited link (by email or WhatsApp), run them under lockdown / anti-cheat conditions with scrambled questions, mark them instantly, and route the results — all coordinated by us.

### **Instant, auditable results**

Every result delivered to you (the employer), to the candidate, and kept on our records. For every wrong answer, the corrected script shows the correct answer and the exact source it came from — so your audits have zero grey area.

### **Verifiable Certificates of Completion**

Issued in your organization's name, carrying CPD hours, each with a unique ID and a QR verification page anyone can check.

### **Remedial & retest built in**

Staff who don't pass receive the study material to re-prepare and a retest within a 3-month window, under the same secure conditions. One retest is included with every code.

### **Security & confidentiality**

Your data is stored securely, used only to deliver this service, and never sold, shared or repurposed. You retain ownership of your staff data, and we delete it on request. Full data-processing terms are provided with your agreement.

## **How it works — start to finish**

- 1 Agreement & onboarding.** A short form captures your logo, brand, needs and staff list.
- 2 We build your branded portal** and load the courses you need.
- 3 You send us the list** — who needs testing, and on which courses.
- 4 We issue each person a secure login code + link** (email or WhatsApp), valid for a set window.
- 5 Your staff complete the course and exam;** everything is marked instantly.

**6 Results and certificates go out** to you and each candidate, with corrected scripts for your audit file.

**7 Remedials and retests are coordinated by us** as needed — you do nothing.

## Pricing

Two simple parts: a monthly platform subscription for your branded portal and our administration, plus a per-person certification fee — **priced by course, so you only pay in line with the weight of what your staff actually take.**

### 1. Per-person certification (login code)

Each code = one staff member, one course — including the course, the exam, the Certificate of Completion, and one free retest within 3 months.

BAND	COURSES (EXAMPLES)	PER CERTIFICATE
<b>Foundation</b>	Awareness & introductory — HazMat Awareness, Rope Rescue Awareness, FEMA ICS-100, Drone & Missile Impact Response	<b>US\$12</b>
<b>Core</b>	Operational & single-discipline — Confined Space Entry, Rope Rescue Operations, FEMA ICS-200, Fire Officer I, Fire Instructor I	<b>US\$18</b>
<b>Advanced</b>	Technician, command & leadership — HAZWOPER, Facility Fire Brigade Exterior, Facility Fire Brigade Leader, Rope Rescue Technician, Confined Space Rescue, FEMA ICS-300 & 400	<b>US\$25</b>
<b>All-Access</b>	Every course, for one staff member — for people who need broad certification	<b>US\$79</b>

Cheaper and cleaner than sending staff to buy their own subscriptions — and they get *your* certificate, under *your* brand, with a full audit trail you control. Volume pricing available above 250 codes.

### 2. Monthly platform subscription

Your branded portal + our full administration of your exams. Pay annually and get 2 months free.

TIER	BEST FOR	PRICE
------	----------	-------

<b>Starter</b>	up to 25 staff	<b>US\$99 / mo</b>
<b>Professional</b>	up to 100 staff	<b>US\$249 / mo</b>
<b>Enterprise</b>	100+ staff / multi-site	<b>US\$499 / mo</b>

All prices in USD; AED and other currencies on request.

## Terms & conditions (summary)

- **Data & privacy.** Staff data is stored securely, used only to deliver this service, never sold or shared. You retain ownership; we delete on request. A full data-processing agreement forms part of your contract.
- **Nature of the certificate.** Certificates are Responder Republic Certificates of Completion carrying CPD hours. They are not a statutory certification, licence or accreditation from any standards body, and are not a substitute for any legally required accredited training. Responder Republic is independent and not affiliated with NFPA, OSHA, FEMA or any body referenced — see our [Legal & IP statement](#)
- **Exam integrity.** Assessments are delivered under lockdown conditions with scrambled questions and time-limited links. Results are final, subject to the retest policy.
- **Billing.** The monthly subscription is billed in advance. Login codes are billed as issued or in prepaid blocks. Payment terms by agreement.
- **Term.** Either party may end the monthly subscription with 30 days' notice. Codes already issued remain valid to their expiry.

## Get started

Tell us your organization, roughly how many staff, and which courses you need. We'll have your branded portal ready and your first cohort testing quickly.
